

PSH employee, Tim Rainey, while a student at The Ontario College of Art, created a remarkable 20' x 15' clay sculpture for installation in the front wall of the new building as his graduating thesis. The 130 component forms in the sculpture, made from 2 tons of sculpture clay, were all individually pressed in plaster molds and fired at Sheridan College. Above, Tim is seated on the platform assembling his creation in 1968. Today, Tim is retired after a long art teaching career at Bracebridge and Muskoka Lakes Secondary School.
